Funeral of Samuel Stubbs

From the Orangeville (Ontario) Banner, we notice the following respecting the funeral of the late Samuel Stubbs, father of Martin Stubbs, of this town:

"The remains were brought from Alberta to the deceased's old home in Carlsbad, arriving on Tuesday evening, March 2nd, accompanied by his two sons, Wm. J. and Samuel J. The funeral was held from the late residence to Carlsbad cemetery on Thursday March 4th. At the request of the family, Rev. S. B. Robinson, of Maple, a sincere friend of the deceased, was the officiating clergyman. With the assistance of Knox Church choir, Mr. Robinson conducted impressive services at the house in the presence of a large concourse of sorrowing friends and neighbors and also officiated at the grave. Profound sympathy is felt for the bereaved widow and family, his only brother and sister, Dr. Wm. Stubbs, V. S., and Mrs. Caroline Harris and the other relatives. The late Mr. Stubbs was a man who had the faculty of making and holding friends and relatives. The memory of his kindly, genial nature will be long and warmly cherished.

Danish Talent Paly

Last Sunday afternoon the Danish Colony at Bingleville was the scene of a home talent play, entitled "The Going of the Bachelors." The play was given in the Danish language, in the hospital home of Mr and Mrs K. Mattson. The leading lady's part was taken very acceptably by Mrs Paul Mattson. In the humorous dialogue she was lamenting the fact that all the nice boys were going away, and she would be alone with her spouse's company for the summer. Other parts taken creditably were by A. Sanderson and E. Ahlstrom. The bachelors: Carl Rasmussen, Postmaster Hanson, Andy Joakerson and others came in for some good natured joking. Over thirty were present and enjoyed the play and the fine lunch served by the hostess.

The Deadly Loaded Gun

Word reaches the News of a sad fatality at Beaver Mines, Alberta, where Peter Kylo, who resided with his family west of town for several years, met death owing to the accidental discharge of a gun in the hands of his son Arthur. From a letter written to Ole Berget by O. Kylo, a sister of the unfortunate man, it appears that he had been out hunting and when he returned home he left the gun lying on the table. The son pulled the trigger and a bullet entered Mr Kylo in the stomach. He was carried to Pincher Creek hospital, but only lived twenty-four hours. He was buried in a graveyard on his homestead. Among those who attended the funeral was I. Armastrong, of Pincher Creek, formerly of Carlsbad. A widow and eight young children survive. The circumstances are indeed sad.

Sunny Jim was the first and he lasted 2 minutes; A Sherman, an ex-champion, went 4 minutes; and the Sleepy Hollow Potato King, stayed 4 minutes. Mike and Dorris boxed, and showed a lack of science that was wonderful.

TOWN HEALTH. Now that the spring thaw has come what are the health authorities doing to keep Carlstadt free of disease? The News promises that its criticisms will always be just; but it also promises that its criticism will be no half way measures. To relieve the surface water, steps have already been taken; but the pigs and cattle still control the streets of our fair village; and surely form a pleasing sight, not to mention the unhealthy atmosphere they create.

THE PROPRIETORSHIP OF THE NEWS. We are confident that a misapprehension exists in the minds of gentlemen about town as to who is owner of The Carlstadt News. We wish, if possible, to clear this up. W. D. MacKAY is proprietor of the News. The only other company having a dollar's interest in the business, is the Toronto Type Foundry Co. of Winnipeg. This company has an interest to the extent of \$250.00; we are thankful to say it is no more.

If any gentlemen is with-holding patronage from this paper assuming that the paper is an adjunct of any party, we hope he will accept this statement, as we have the documentary proofs to submit if requested. We hope to run the paper as a business proposition in the interests of Carlstadt and vicinity, and to earn an honest livelihood for the editor. Any party desiring the use of our advertising columns, can secure them at reasonable rates. We think this entirely fair.

We might add that a little more support extended to the News at the present, would not be amiss. The financial position of the town paper was never nearer solid ground, than it is to-day.

FARM JOURNALS. The News is often asked, "why doesn't your paper publish articles of interest to farmers on markets, stocks, rotation of crops, socialism, etc?" Well, let us answer this once and for all. Consider the name of the paper—The News. The primary duty, as we understand it, is to give this district the latest happenings of interest, and keep readers in touch with coming events. The article mentioned can be secured by adding a small additional amount on to your subscription to the News and secure the Grain Growers Guide, of Winnipeg. Both papers one year for \$1.50.

LAND OFFICE. Ever since the town of Carlstadt started it should have had a sub office of the Dominion Land Office. The expense to which most homesteaders are put in going to the Hat would be saved—and heaven knows that about all a homesteader has now-a-days is expenses.

How and Why It Rains.

Rain is an accumulation of the fine particles of the vapor of air, which are drawn into drops. These drops, first small of size, attract others of their kind and become drops of such magnitude that they fall to the earth because of their weight. There is a limit to the quantity of water which air is capable of absorbing and retaining as invisible vapor. Vapor is able to hold more than cold air, hence when the air which is saturated with moisture becomes cold for any reason whatever it can no longer retain its moisture. A portion must under such conditions accumulate into drops. These fall to the earth in the shape of rain.

Wants a Rainy Wedding Day.

The Swedish girl prays for a rainy day in which to get married. Then before she goes to the ceremony attended in her wedding clothes she milks the cow, feeds the calf and steals a great feather from the hen. That is to bring her husband good luck. The Swedish bride wears horse shoes, unbuttoned and untied, as her wedding. In one is a silver coin, in the other a gold one. This is to bring her the necessities and luxuries of life.

Paternal Confidence.

The Young Man (with some embarrassment)—There is one question you haven't asked me yet, Mr. Harp. You haven't wanted to know why Henry died? I think I can make a living for your daughter.
The Older Man—That isn't necessary, Henry. She'll see that you make the living, all right, if she's as good a mother, and I think she is.

Fond of Their Own Music.

"I should think some of these speechmakers would get tired of hearing themselves," said the proprietor of the village store.
"Human nature's the same in politics as in any other place," replied old Joe Shillerton. "A man doesn't listen to the worst noise a cornet can make, provided he's the feller that's doing the practicing."

A Sacrifice.

"An' that ungrateful boy of mine," whimpered the man in the prisoner's dock. "After all the sacrifices I've made for him he refuses to pay my fine."
"What sacrifices did you make for him?" asked the attorney.
"Was sacrifices? Didn't I let him turn his way through college?"

Rainy Valley

(Too late for last week's issue)

S. Thomas spent a pleasant evening at the Broderson home Monday. John Bone attended the party at the H. E. Kimball home Tuesday evening. Some play! And the big feed was enjoyed by all.

A number of young people from this vicinity attended the minstrel play and dance in Carlstadt Friday evening. Some play! And the big feed was enjoyed by all.

C. R. McDonald and John Becker were Carlstadt visitors Saturday.

A. Williamson and Clifford Furdon called at Geo. Furdon's Saturday afternoon.

S. Thomas and wife, John Bone, and Geo. Conley attended the literary meeting at Royal schoolhouse Saturday evening. Guide boards would have been appreciated.

Tide Lake

The U. F. A. meeting Saturday evening was well attended and much interest was manifested. Five new members were added to the roll. The debate came off as scheduled, and resulted in a decision for the affirmative. Debate for Saturday the 27th is Resolved: That the consolidated school system would be better than the rural system.

Affirmative: E. E. Allen; Negative: R. Clark and John Geller.

Clint Adams was seen hauling a baby carriage from town last week.

Herb Glenn, a soldier boy of the third contingent, now training at Calgary, came down Friday and stayed until Sunday evening, visiting his brother Euson and his many friends at Tide Lake. He expects to leave for the front within about a month. Herb is a good industrious young man, and is the only one from Tide Lake to enlist in this most noble cause. We all wish him a good time and good luck, and hope to see him in our midst again soon.

From another Correspondent
Everett Spinks, provincial director of the U. F. A., attended the meeting of the Tide Lake Union, on Saturday night. Discussing politics Mr. Sparks poured some hot shot into a few members who attempted to gain credit for the Conservative government. Mr. Sparks in a few crisp phrases laid down facts and figures to show how reciprocity with the States would have benefited Canada; especially as regards food taxes. "Any member of a U. F. A.," said Mr. Sparks "who would vote against Laurier and reciprocity, should have his head examined."

Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY BECAUSE.

Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years' to pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record. Get full particulars from

THE STORY OF ONE DOLLAR

What You Can Buy With It in a Big
Store—Made-in-Canada! Pur-
chase Save Money
(Everywoman's World)

Jane thought—the process of think-
ing with Jane, was worth following.
She added the month's expenses
again, wrinkled her pretty forehead,
added them again, brushed an
imaginary cobweb from her mind with
a movement of her manicured fingers,
and finally reached the conclusion that
as far as mathematics could decide,
she undoubtedly had one dollar extra.
Simultaneously with this conclusion
came an insistent not to be denied
vision of a white, ribbon-died box
bais, filled with chocolates, each dif-
ferent from the other. On the heels
of this picture floated a more insistent
one of the florist's shop front which
a straight line lead to poor, crippled
Miss Anne in the next street. Miss
Anne won. Her love of flowers was
not to be denied.

In fifteen minutes Jane had got the
roses that Miss Anne loved in tall
vases in the sick woman's room.
The dollar bill lay in the florist's
cash register with others until even-
ing, when—as it was Saturday—it was
one of ten that made up the weekly
wage of Madge, who assisted in the
shop.

Madge had to buy a new blouse.
On her way home at eight o'clock she
stopped at Graham's to look at their
dollar blouses. She was fortunate,
there were not only dollar blouses
but three dollar blouses marked down
to one. To be sure, they were very
tired looking three dollar blouses and
would need a considerable amount of
starch before they could face the
world with any degree of confidence.
But Madge liked them in spite of their
faintness. Then the sales girl,
growing sympathetic, pulled an even
better looking blouse from the heap.
"Where did this come from?" asked
Madge looking at the \$3 lot.

"New York. I don't know how they
can make such goods for \$3. And
you've a chance to get it at—"
Madge's eye wandered to the next
table, where \$1 blouses remained \$1
blouses.

"Where did those come from?"
"Right here in Toronto. Made-in-
Canada goods. Now, if you want a
real made at home, but not a home
made blouse, you will like one of
these."

"Madge looked at them. The style
was not a year old, as the bargain
ones were, but attractive and simple.
The blouses were well made and looked
as if they would wear."
"Made in Canada," repeated the
salesgirl.

"Yes," assented Madge, "one of
these is what I want. Was the cotton
made here, too?"

She took the Made-in-Canada blouse
home and was satisfied.
That dollar of Madge's formed one
of the seven that Arethusa got for
her wage that week.

An idea had occurred to Arethusa.
She had said, "Made-in-Canada!"
mechanically for months, and now
she had the slogan struck her with
full force. She went to a drug store.

"Have you talcum powder that is
made in Canada?"

"Yes."

"How much is it?"

"Twenty cents."

"But the others are twenty-five."

"Yes, but they are imported. We
can beat them on the price, it is just
as good but some don't think so be-
cause it is made here."

"How idiotic! Why, if it's made
in Canada, it's made by Canadians
for Canadians."

Eighty cents left!

This was spent in the same patriotic
manner.

Arethusa went home slowly, think-
ing.

A girl had bought a blouse from her
because it was a good blouse and was
made in Canada.

That meant that some other girl

had seen it in Canada, some one had
cut it, some one in Canada had de-
signed it. That was a made-in-Canada
blouse instead of one brought across
the sea. Arethusa liked the idea.
Then she had bought a box of tal-
cum powder because it was made in
Canada. That meant that some
people, perhaps even one she knew,
had worked to make it in the whole-
sale drugstore.

She had bought fruit grown in Can-
ada. That made her think of the
wheat and cattle of the West as well
as of the peninsula we call the Gar-
den of Canada.
Finally, she had bought paper made
in Canada. Arethusa didn't know all
that this meant, but perhaps you do.
The paper made in Canada meant that
instead of exporting the pulp-wood
made from the spruce of the northern
forests, the wood was made into
paper in Canada.

This meant great plants employing
men who would have to be fed with
foods produced in Canada—the wheat,
beef, cheese, grapes, and apples, which
literally were the first things made
in Canada. They would need cloth-
ing which the country could make, as
Arethusa had seen, had she not sold
clothing made in Canada? And the
paper which they made would be the
paper used by the farmers, the fruit
growers, the manufacturers and the
workers.

Truly, it all went round in a circle—
a very wonderful circle.

KEEP OUR WORKMEN FROM BECOMING IDLE

Strengthen Orders From Canadian
Factories by Buying all the Pro-
ducts of Canadian Labor

Suppose that we continue buy-
ing foreign made goods and allow
our own workmen to fall into idleness
because of a lack of orders for Cana-
dian factories! First, we shall have
this winter the evil of unemployment.
What does that mean? Able-bodied
men unable to find any occupation—
idle, desperate, their wives and babies
hungry! When conditions become
serious the various towns and cities
will organize relief funds and prob-
ably arrange special civic works in
order to give the unemployed enough
work to keep them fed. But aside
from that there would still have to
be tremendous sums spent on charity.
That means concentrating pauperism.
Meanwhile the money spent on civic
works is only half efficient since the
time lost in distributing the work
evenly among the unemployed is great,
and the underfed workman cannot be
expected to do a full day's work.

But there is an effort to be looked
for even worse than this: The un-
employed will begin to move. They
will endure the situation until they
reach the end of their resources. Then,
such of them as have the means will
go to other countries—notably United
States. They will go where you and
I are sending our money for supplies.
They will follow the money. If we
send it out of Canada they will follow
it. If we keep it at home we may
hope to keep them also. If we don't
Canada's population will fall, the
value of real estate will drop, the
foreign factory will be flooded with
offers of cheap labor, and so will be
able to wipe out Canadian competition.
Canada will receive a bad name
among the working classes. Manu-
facturers and capitalists will be dis-
couraged, enterprises dulled and in-
vestment lost. If all this does not
stand together in mutual support in
the months to come, Canada will re-
ceive a setback from which it would
take her years to recover.
